Mail Stop Amendment  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

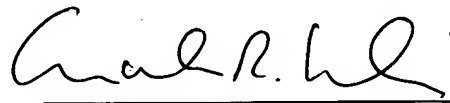

The above-referenced application includes claims 1-49. In the Examiner's November 10, 2005 Office Action, the Examiner requires restriction of the application to the claims of one of the following invention groups:

- I. Claims 1-34, directed to an alloy; and
- II. Claims 35-49, directed to a method of making an alloy.

In response, Applicants hereby elect, without traverse, Invention Group I, claims 1-34, for further consideration in the present application.

Applicants believe that the elected claims are in condition for allowance and, therefore, respectfully request issuance of a Notice of Allowance at an early date. Should the Examiner, however, conclude that the elected claims are other than in condition for allowance, Applicants request that the Examiner contact the undersigned so that the Examiner's concerns may be addressed expeditiously.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Mark R. Leslie", written over a horizontal line.

(Signature of person mailing paper or fee)

**NOTE:** Each paper must have its own certificate and the "Express Mail" label number as a part thereof or attached thereto. When, as here, the certification is presented on a separate sheet, that sheet must (1) be signed and (2) fully identify and be securely attached to the paper or fee it accompanies. Identification should include the serial number and filing date of the application as well as the type of paper being filed, e.g. complete application, specification and drawings, responses to rejection or refusal, notice of appeal, etc. If the serial number of the application is not known, the identification should include at least the name of the inventor(s) and the title of the invention.

**NOTE:** The label number need not be placed in each page. It should, however, be placed on the first page of each separate document, such as, a new application, amendment, assignment, and transmittal letter for a fee, along with the certificate of mailing by "Express Mail." Although the label number may be on checks, such a practice is not required. In order not to deface formal drawings it is suggested that the label number be placed on the back of each formal drawing or the drawings be accompanied by a set of informal drawings on which the label number is placed.
